

# Speed Borer for Timber Sleepers– FP-140/155

Part No. FP-140-EY

Dedicated Unit – FP-140

The unit has easy to change drill guides and bits, easy to adjust depth stops/apply lever assisted hand feed/ and drill depth stop.

One of the necessities of a good drill is the ease in setting up the drill. The FP-155 has full angle tilt in all directions via clamp on a ball mounting.

The FP-140 models are available in Honda petrol recoil start or Honda petrol/Yanmar diesel electric start with centrifugal clutch.

Trackpack Head – FP-155-AO
